

Headshot Photography Prices and Fine Print

To keep things simple I offer one basic headshot package with a few optional add-ons. Prices are as follows:

- **One final retouched high resolution image**
- **One background/Lighting setup**
- **No set time limit or number of exposures**
- **Online proofing with private log in**
- **Complete session files included (unretouched low resolution)**
- **Cost: \$275.00**

Add-ons:

Each additional retouched high resolution image: \$25.00

Additional background or lighting setup: \$100.00

Hair and make-up: Prices upon request

Special arrangements of any kind: Prices upon request

The session location will be decided upon ahead of time. I currently limit it to Northern New Jersey under these current prices. Any other areas or special concerns can be discussed. Wardrobe, hair and make-up, etc. will all be discussed beforehand as well. A hair and/or make-up artist will not be provided unless so desired and arranged well ahead of time and will be a separate charge. Most people are more than happy with their own hair and make-up!

The session includes no set time limit or number of exposures. I do not want you to feel rushed or pressured in any way. This is very important in order to get a headshot that represents exactly what you are looking to represent. With this in mind, however, I encourage the actual shooting time to try not to exceed three hours. After too much time some of the magic is lost. As far as number of exposures is concerned, I will shoot until I run out of space! However, keep in mind you are going to be the one trying to make your final selection(s). This can be a very long and mind numbing process especially when trying to look at several hundred choices.

I like to use existing backgrounds that are blurry and out of focus. Don't worry, you will be sharp as a tack! Any special backgrounds that differ from this will have to be discussed ahead of time. Once we mutually agree on background and lighting on the day of the session, we will commence shooting. Any additional background or lighting changes will be an additional charge. This usually never happens.

Private online proofing will be provided usually the following day after the shoot. Keep in mind during the shoot we can and will take breaks to review what we have taken as we go along. For your convenience, this will be done on my laptop and not on the back of the camera.

That's it! Any other questions you can think of please feel free to contact me. I look forward to meeting and working with you.
